Chapter Section	3.1 Solving equations using addition and subtraction			3.2 Solving Equations Using Multiplication and Division	
Objective	*To solve linear equations using addition and subtraction *To use linear equations to solve real-life problems			To assess students learning and concept understanding. *To solve linear equations using multiplication and division	
NV Standards	(2.8.5)			(2.8.5)	
Warm Up: Passing the NV HS Prof exam Book	Review of addition and subtraction of Real numbers			Questions/Answers before the test	
Activities	Answer to questions found on the test and on chapter 1 and 2 *Demonstration of the usage of addition, subtraction to solve an equation. *Demonstration of the difference between simplifying an expression and solving an equation.			*Demonstration of the usage of addition, subtraction, multiplication and division to solve an equation. *Demonstration of the difference between simplifying an expression and solving an equation.	
Lesson Reflection	Why is it important to solve equations?			How to cope with the fractions?	
Homework Page reference: Page in student's notebook	*P.64, Prac 3.1B #1, 4, 7, 10, 13, 16, 19, 22, 25, 28, 30, 32 *P.66 Prereading notes 3.2			*P.68 Prac 3.2B #1, 2, 3, 7, 8, 9, 10, 13, 19, 22, 23, 28 *P.70 Prereading notes 3.1
